Introduction

Every day, educators and students are exposed to big and small challenges that can contribute to feelings of stress. This year educators and students have risen to the challenge in innovative and creative ways, connecting and building meaningful relationships with students and families. As the impact of the pandemic continues to evolve, providing opportunities for explicit skill development will continue to be an essential part of bolstering positive student mental health. As an educator, it is equally important to prioritize your own well-being.

School Mental Health Ontario, in partnership with Ophea, is offering a series of lessons to support the development of stress management and healthy coping skills. The activities in these lessons provide an opportunity for skill development and modelling for both students and educators.

Each lesson will provide:

- A **minds on activity** for both educators and students.
- An **action** – through a video, classes will participate in a '**virtual field trip**' that provides opportunities for students and their educator teams to learn, practice and develop skills to cope with and manage stress.
- A **consolidation** activity for follow up after the virtual field trip.

In this series of six lessons we will:

- Explore the connection between mental and physical health.
- Discuss the benefits of physical activity for stress management.
- Practice stress management coping skills.

Grades 7 – 8

Lesson Plan

This is the first lesson in a series of six lessons to support the development of **stress management** and **healthy coping skills**.

By demonstrating a range of stress management strategies, students will have more options and ideas for staying mentally well during difficult times. It is important to note that different strategies work for different individuals. Sharing a range of strategies over time will allow students the opportunity to try them out and determine what works for them.

OVERALL EXPECTATIONS:

Strand D, Healthy Living

This chart provides a brief summary of the mental health literacy topic learning, that this lesson will address, for **grades 7 – 8**.

Mental Health Literacy topic	D1 Understanding Health Concepts	D2 Making Healthy Choices	D3 Making Connections for Healthy Living
Grade 7	D1.6 Mental health, mental illness		
Grade 8		D2.4 Routines and habits for mental health	

Strand A, Social Emotional Learning (SEL) Skills

The chart below provides an “at-a-glance” summary of SEL skills. SEL has been shown to support student emotional wellness, when offered in the context of a caring, inclusive, equity-minded classroom setting. When student identity is affirmed, and skills are introduced in a developmentally-appropriate and sequenced manner, students can select and adopt social-emotional strategies that build on their strengths. The highlighted skills will be the focus of this lesson series. Learning related to SEL skills are woven throughout the health and physical education curriculum for all grades.

Students will learn skills to:	So they can:
<ul style="list-style-type: none"> • identify and manage emotions 	<ul style="list-style-type: none"> • express their feelings and understand the feelings of others
<ul style="list-style-type: none"> • recognize sources of stress and cope with challenges 	<ul style="list-style-type: none"> • develop personal resilience
<ul style="list-style-type: none"> • maintain positive motivation and perseverance 	<ul style="list-style-type: none"> • foster a sense of optimism and hope
<ul style="list-style-type: none"> • build relationships and communicate effectively 	<ul style="list-style-type: none"> • support healthy relationships and respect diversity
<ul style="list-style-type: none"> • develop self-awareness and sense of identity 	<ul style="list-style-type: none"> • develop a sense of identity and belonging
<ul style="list-style-type: none"> • think critically and creatively 	<ul style="list-style-type: none"> • make informed decisions and solve problems

For a more detailed overview please see the [2019 HPE Curriculum](#).

LEARNING GOALS:

EDUCATOR	CLASS
<p>As educators, we are learning to build the confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between our mental and physical health. • discuss the benefits of physical activity for stress management. • practice stress management coping skills. 	<p>As students, we are learning to build confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between mental and physical health. • practice breathing strategies as a possible tool to help us cope with stress.

SUCCESS CRITERIA:

Co-develop success criteria with your students using the following questions: “How will we know we are achieving our learning goals? What will it look like/sound like?”

For example:

- I can recognize that stress is a part of life and that it can be managed.
- I can learn ways to respond to stressful challenges.
- I can practice, observe, and apply strategies to help manage my stress.

CONSIDERATIONS:

- Approaches to all instruction, including Social-Emotional Learning (SEL) skills, must be mediated through respectful conversations about students’ lived realities, inequity, bias, discrimination and harassment. Starting with self-reflection about yourself, the classroom and the situations individual students in your class may be coping with is key. It is important to remember that our students face a range of challenges that are relative to their personal, social, and cultural lived experience. They also have existing ways of coping. Be sure to consider sources of stress and examine and address structures that reinforce inequitable conditions that add stress to you, your students and entire communities. Through instruction and modelling, we can help students practise new and bolster existing coping strategies.
- This virtual field trip lesson is intended to be embedded as part of your school day. Our collective learning takes place on many different traditional Indigenous territories all across Ontario. We are grateful to be able to work and learn locally on these lands. As a school in Ontario we understand morning routines, including a land acknowledgement specific to your location, will have taken place prior to this field trip.
- The focus on emotions may be difficult for some students. Be prepared to connect students to additional supports if needed. Refer to the [ONE-CALL Desk Reference](#) for more information, and take time to consider your school and board circle of support and service pathways. Know what to do, and who to connect with, if a student seems like they might be struggling with their mental health.

MINDS ON:

The Minds On is to be completed BEFORE the virtual field trip.

EDUCATOR	CLASS
<p>What is social-emotional learning?</p> <p>Watch this 5 minute video for helpful background information: What is social-emotional learning?</p> <p>Guiding Questions:</p> <ul style="list-style-type: none"> • What kind of emotions do you experience throughout your day before, during and after school? • Describe some reasons why it would be important to understand and know how to manage your emotions. • How do you think social-emotional learning skills help you as an educator? • How do you think social-emotional learning skills strengthen the relationships with your students and others around you? 	<p>Learning about Stress Management and Coping</p> <p>Watch the Skills for students: Managing the stress we feel with your students.</p> <p>Guiding Questions:</p> <ul style="list-style-type: none"> • What kind of emotions do you experience throughout your day at school? • Why is it important to understand and know how to manage your emotions? • How do you know when you are feeling stress? • What are some strategies you currently use to help manage feelings of stress?

ACTION TASK – VIRTUAL FIELD TRIP:

This pre-recorded session is facilitated by an Ophea Educator ambassador and a clinician from School Mental Health Ontario. This session focuses on breathing strategies and how they can help us cope with stress. Guided breathing exercises are an effective and useful tool to help us check-in with ourselves and manage our emotions. These types of interventions can help decrease how our body physically reacts to stress, and helps us calm our mind. In the video, the educator and mental health professional lead a variety of breathing exercises for you and your students to participate in together.

[Click here to view on YouTube](#)

[Click here to view on Vimeo](#)

CONSOLIDATION:

These activities and resources are designed to provide opportunities for consolidation of learning for both the educator and the students. Also provided is a letter to offer families to share information and share opportunities for follow-up learning.

EDUCATOR	CLASS	FAMILIES
<p>Support your own mental health with these self-care tips:</p> <p>SMH-ON Personal Resiliency Tips for helpers who Support Students</p>	<p>Choose from the following activities:</p> <ul style="list-style-type: none"> <p>▣ Discussion</p> <p>Revisit some of the guiding questions in the minds-on and compare ideas from pre and post field trip.</p> <p>▣ Offer students further opportunities to practise the strategies introduced, or try new strategies from School Mental Health Ontario and Ophea.</p> <ul style="list-style-type: none"> • School Mental Health Ontario: <ul style="list-style-type: none"> - Everyday Mental Health Resource (contains some of the activities used in the virtual field trip) - Breathing and Noticing - Circular Breathing Exercise • Ophea, Brain Blitz: <ul style="list-style-type: none"> - Breathing with Awareness - Breathing Good Energy In - Happy Place Meditation 	<p>Letter to share with caregivers</p>

Dear Parent/Caregiver,

Today our class participated in a virtual field trip to learn more about coping with stress, recognizing that stress is a part of life, and that there are strategies to help us cope.

If you would like to continue the learning from today, here are a few prompts to ask your child.

- Which strategy/strategies from today felt most helpful for you?
- Do you have other strategies of your own that you find helpful? What are they?
- Why do you think it is important to understand and know how to manage your emotions?

Your child was also introduced to the [COVID-19 Youth Mental Health Resource Hub](#).

We explored some of the many resources designed to support youth, including a package of visuals about breathing exercises.

For more activities to try at home, check out this set of activity cards from School Mental Health Ontario: <https://smho-smso.ca/wp-content/uploads/2020/07/EDMH-ParentActivities-FINAL-EN.pdf>

You can also access Ophea's H&PE curriculum connected content appropriate for online delivery at home at: ophea.net/hpeathome and visit [Ophea Open Class](#) for recorded instructional videos and lessons with guiding reflection questions related to social-emotional learning to support learners at home.

Introduction

Every day, educators and students are exposed to big and small challenges that can contribute to feelings of stress. This year educators and students have risen to the challenge in innovative and creative ways, connecting and building meaningful relationships with students and families. As the impact of the pandemic continues to evolve, providing opportunities for explicit skill development will continue to be an essential part of bolstering positive student mental health. As an educator, it is equally important to prioritize your own well-being.

School Mental Health Ontario, in partnership with *Ophea*, is offering a series of lessons to support the development of stress management and healthy coping skills. The activities in these lessons provide an opportunity for skill development and modelling for both students and educators.

Each lesson will provide:

- A **minds on activity** for both educators and students.
- An **action** – through a video, classes will participate in a '**virtual field trip**' that provides opportunities for students and educators to learn, practice and develop skills to cope with and manage stress.
- A **consolidation** activity for follow up after the virtual field trip.

In this series of six lessons we will:

- Explore the connection between mental and physical health.
- Discuss the benefits of physical activity for stress management.
- Practice stress management coping skills.

Grades 7 – 8

Lesson Plan

This is the second lesson in a series of six lessons to support the development of **stress management** and **healthy coping skills**.

By demonstrating a range of stress management strategies, students will have more options and ideas for staying mentally well during difficult times. It is important to note that different strategies work for different individuals. Sharing a range of strategies over time will allow students the opportunity to try them out and determine what works for them.

OVERALL EXPECTATIONS:

Strand D, Healthy Living

This chart provides a brief summary of the mental health literacy topic learning, that this lesson will address, for **grades 7 – 8**.

Mental Health Literacy topic	D1 Understanding Health Concepts	D2 Making Healthy Choices	D3 Making Connections for Healthy Living
Grade 7	D1.6 Mental health, mental illness		
Grade 8		D2.4 Routines and habits for mental health	

Strand A, Social Emotional Learning (SEL) Skills

The chart below provides an “at-a-glance” summary of SEL skills. SEL has been shown to support student emotional wellness, when offered in the context of a caring, inclusive, equity-minded classroom setting. When student identity is affirmed, and skills are introduced in a developmentally-appropriate and sequenced manner, students can select and adopt social-emotional strategies that build on their strengths. The highlighted skills will be the focus of this lesson series. Learning related to SEL skills are woven throughout the health and physical education curriculum for all grades.

Students will learn skills to:	So they can:
<ul style="list-style-type: none"> • identify and manage emotions 	<ul style="list-style-type: none"> • express their feelings and understand the feelings of others
<ul style="list-style-type: none"> • recognize sources of stress and cope with challenges 	<ul style="list-style-type: none"> • develop personal resilience
<ul style="list-style-type: none"> • maintain positive motivation and perseverance 	<ul style="list-style-type: none"> • foster a sense of optimism and hope
<ul style="list-style-type: none"> • build relationships and communicate effectively 	<ul style="list-style-type: none"> • support healthy relationships and respect diversity
<ul style="list-style-type: none"> • develop self-awareness and sense of identity 	<ul style="list-style-type: none"> • develop a sense of identity and belonging
<ul style="list-style-type: none"> • think critically and creatively 	<ul style="list-style-type: none"> • make informed decisions and solve problems

For a more detailed overview please see [Appendix A of the 2019 HPE Curriculum](#).

LEARNING GOALS:

EDUCATOR	CLASS
<p>As educators, we are learning to build the confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between our mental and physical health. • discuss the benefits of physical activity for stress management. • practice stress management coping skills. 	<p>As students, we are learning to build confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between mental and physical health. • talk about the benefits of physical activity for stress management. • practice muscle relaxation strategies as a possible tool to help us cope with stress.

SUCCESS CRITERIA:

Co-develop success criteria with your students using the following questions:

- How will we know we are achieving our learning goals?
- What will it look like/sound like?

Re-visit the success criteria you created from [the first virtual field trip](#). What opportunities are there to extend the learning?

For example:

- I can recognize that stress is a part of life and that it can be managed.
- I can learn ways to respond to stressful challenges.
- I can practice, observe, and apply strategies to help manage my stress.

CONSIDERATIONS:

- ▶ Approaches to all instruction, including Social-Emotional Learning (SEL) skills, must be mediated through respectful conversations about students' lived realities, inequity, bias, discrimination and harassment. Starting with self-reflection about yourself, the classroom and the situations individual students in your class may be coping with is key. It is important to remember that our students face a range of challenges that are relative to their personal, social, and cultural lived experience. They also have existing ways of coping. Be sure to consider sources of stress and examine and address structures that reinforce inequitable conditions that add stress to you, your students and entire communities. Through instruction and modelling, we can help students practise new and bolster existing coping strategies.
- ▶ This virtual field trip lesson is intended to be embedded as part of your school day. Our collective learning takes place on many different traditional Indigenous territories all across Ontario. We are grateful to be able to work and learn locally on these lands. As a school in Ontario we understand morning routines, including a land acknowledgement specific to your location, will have taken place prior to this field trip.
- ▶ The focus on emotions may be difficult for some students. Be prepared to connect students to additional supports if needed. Refer to the [ONE-CALL Desk Reference](#) for more information, and take time to consider your school and board circle of support and service pathways. Know what to do, and who to connect with, if a student seems like they might be struggling with their mental health.
- ▶ An effort has been made to include different options for each of the activities. Please feel free to offer further modifications and accommodations based on the individual student need(s) in your classroom. Also, note that all videos have subtitles. You can choose to have captions by clicking the small 'CC' button at the bottom right of the video screen.

MINDS ON

The Minds On activities are to be completed BEFORE the virtual field trip.

EDUCATOR**Reflect on the following questions:**

- How does your body feel when you are experiencing stress?
- What are coping strategies that you find work the best for you to manage these feelings?

CLASS

Visit our classroom conversation starters package and scroll to the green section, (pages 35 - 42), all about stress management and coping: <https://smho-smso.ca/wp-content/uploads/2020/09/Class-Conversation-Starters-EN.pdf>. There are four questions there to start a conversation about 'Handling Stress' – use all four question cards or select the question, or questions that you think are most suitable for your class.

ACTION TASK: VIRTUAL FIELD TRIP VIDEO

This session focuses on muscle relaxation and how these exercises can help us manage stress. Feeling anxious affects our bodies and minds. Muscle relaxation exercises can help us decompress and feel better physically, which in turn help us feel better mentally. In the video, the educator and mental health professional will lead a variety of muscle relaxation exercises for you and your students to participate in together.

Here are links to the activity cards we will be demonstrating in this video:

- [Let Go and Stretch](#)
- [Stretch in your Chair](#)
- [Tense and relax](#)

Links to view virtual field trip:

[Click here to view on YouTube](#)

[Click here to view on Vimeo](#)

CONSOLIDATION

These activities and resources are designed to provide opportunities for consolidation of learning for both the educator and the students. Also provided is a letter to offer parents/caregivers that shares information and possible opportunities for follow-up learning.

EDUCATOR

Self-Care Plan – Consider using the information found in the following link to set priorities and build yourself a self-care toolkit. There is list of items to assist you with checking in on your current self-care practices. Select 1-2 priorities from each category (physical, social, mental, emotional, spiritual) that you would like to practise.

[Understanding the Importance of Self Care – from jack.org](#)

CLASS

Choose from the following activities:

Discussion

Revisit the class conversation starters from the minds-on and compare ideas from pre and post field trip. If possible, consider doing this as an outdoor ‘walk and talk” with partners.

Reflect

Remind students of the breathing strategies shared in the [first Virtual Field Trip](#) session. Have students reflect on and compare the two different types of strategies (breathing vs muscle relaxation). Which strategy or strategies do they think they would continue to use and why?

Practise

Offer students further opportunities to practise the strategies introduced, or try new strategies using some of these tools from *School Mental Health Ontario* and *Ophea*.

- School Mental Health Ontario:
 - [Everyday Mental Health Resource](#)
(contains some of the activities used in the virtual field trip)
 - Try this [End of Day Quiet Reflection](#) stretching activity.
- Ophea, Brain Blitz:
 - [Breathing with Awareness](#)
 - [Breathing Good Energy In](#)
 - [Happy Place Meditation](#)

PARENT/CAREGIVER

Today our class participated in a virtual field trip to learn more about coping with stress, recognizing that stress is a part of life, and that there are strategies to help us cope. If you would like to continue the learning from today, here are a few prompts to ask your child.

- Why do you think it is important to understand and know how to manage your emotions?
- Which muscle relaxation strategy/strategies from today felt most helpful for you?
- Do you find moving your body or being physically active a helpful way to cope with feelings? Why or why not? Are there activities that you would find helpful to do together?

For more activities to try at home, check out this set of activity cards from *School Mental Health Ontario*: <https://smho-smsso.ca/wp-content/uploads/2020/07/EDMH-ParentActivities-FINAL-EN.pdf>.

You can also access *Ophea's Resources to Support Parents and Caregivers with Health and Physical Education at Home* and visit *Ophea Open Class* for recorded instructional videos and lessons with guiding reflection questions related to social-emotional learning to support learners at home.

Please feel free to offer further modifications and accommodations based on the individual student need(s) in your classroom. Also, note that all videos have subtitles. You can choose to have captions by clicking the small 'CC' button at the bottom right of the video screen.

MINDS ON

This virtual field trip focuses on **visualization** activities and how this strategy can help us manage stress. It is important to recognize how our body feels, while noticing and acknowledging our feelings. Guided imagery provides an opportunity to shift our focus away from worries and distractions. It can help us relax when we visualize an image that promotes feelings of calm.

Please complete this Minds On activity before participating in the virtual field trip.

EDUCATOR	CLASS
<p>Reflect on the following questions:</p> <ul style="list-style-type: none"> • Can your thoughts change how your body feels? • Can the way your body feels change your thoughts? • Can your emotions change how your body feels? • Can the way your body feels change your emotions? <p>Try this Breathing and Noticing video. Notice how you feel physically and mentally before the activity. Check in after the activity to see if there are any changes.</p>	<p>Would You Rather?</p> <p>Re-visit our classroom conversation starters package. Scroll to the blue section, (pages 43- 54). There are six different 'would you rather?' questions to spark conversations and get students thinking. Use all six question cards or select the question, or questions that you think are most suitable for your class. https://smho-smso.ca/wp-content/uploads/2020/09/Class-Conversation-Starters-EN.pdf</p>

ACTION TASK: VIRTUAL FIELD TRIP VIDEO

In the video, an educator and mental health professional will lead two guided visualization activities for you and your students to participate in together. This strategy puts us in touch with our internal thoughts and helps us focus. This in turn can help us recognize sources of stress and help us cope with challenges.

Here are links to the activities that are demonstrated in this video:

- Body scan activity from Opeha combines two activities from the [Brain Blitz resource](#)
- [Visualization video](#) from School Mental Health Ontario

Also, be sure to check out the additional resources in the consolidation section of this lesson for follow-up learning.

Introduction

Every day, educators and students are exposed to big and small challenges that can contribute to feelings of stress. This year educators and students have risen to the challenge in innovative and creative ways, connecting and building meaningful relationships with students and families. As the impact of the pandemic continues to evolve, providing opportunities for explicit skill development will continue to be an essential part of bolstering positive student mental health. As an educator, it is equally important to prioritize your own well-being.

School Mental Health Ontario, in partnership with *Ophea*, is offering a series of lessons to support the development of stress management and healthy coping skills. The activities in these lessons provide an opportunity for skill development and modelling for both students and educators.

Each lesson will provide:

- A **minds on activity** for both educators and students.
- An **action** – through a video, classes will participate in a '**virtual field trip**' that provides opportunities for students and educators to learn, practice and develop skills to cope with and manage stress.
- A **consolidation** activity for follow up after the virtual field trip.

In this series of six lessons we will:

- Explore the connection between mental and physical health.
- Discuss the benefits of physical activity for stress management.
- Practice stress management coping skills.

Grades 7 – 8

Lesson Plan

This is the fourth lesson in a series of six lessons to support the development of **stress management** and **healthy coping skills**.

By demonstrating a range of stress management strategies, both students and educators will have more options and ideas for staying mentally well during difficult times. It is important to note that different strategies work for different individuals. Sharing a range of strategies over time will allow students the opportunity to try them out and determine what works for them.

OVERALL EXPECTATIONS:

Strand D, Healthy Living

This chart provides a brief summary of the mental health literacy topic learning, that this lesson will address, for **grades 7 – 8**.

Mental Health Literacy topic	D1 Understanding Health Concepts	D2 Making Healthy Choices	D3 Making Connections for Healthy Living
Grade 7	D1.6 Mental health, mental illness		
Grade 8		D2.4 Routines and habits for mental health	

Strand A, Social Emotional Learning (SEL) Skills

The chart below provides an “at-a-glance” summary of SEL skills. SEL has been shown to support student emotional wellness, when offered in the context of a caring, inclusive, equity-minded classroom setting. When student identity is affirmed, and skills are introduced in a developmentally-appropriate and sequenced manner, students can select and adopt social-emotional strategies that build on their strengths. The highlighted skills will be the focus of this lesson series. Learning related to SEL skills are woven throughout the health and physical education curriculum for all grades.

Students will learn skills to:	So they can:
<ul style="list-style-type: none"> • identify and manage emotions 	<ul style="list-style-type: none"> • express their feelings and understand the feelings of others
<ul style="list-style-type: none"> • recognize sources of stress and cope with challenges 	<ul style="list-style-type: none"> • develop personal resilience
<ul style="list-style-type: none"> • maintain positive motivation and perseverance 	<ul style="list-style-type: none"> • foster a sense of optimism and hope
<ul style="list-style-type: none"> • build relationships and communicate effectively 	<ul style="list-style-type: none"> • support healthy relationships and respect diversity
<ul style="list-style-type: none"> • develop self-awareness and sense of identity 	<ul style="list-style-type: none"> • develop a sense of identity and belonging
<ul style="list-style-type: none"> • think critically and creatively 	<ul style="list-style-type: none"> • make informed decisions and solve problems

For a more detailed overview please see [Appendix A of the 2019 HPE Curriculum](#).

LEARNING GOALS:

EDUCATOR	CLASS
<p>As educators, we are learning to build the confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between our mental and physical health. • discuss the benefits of physical activity for stress management. • practice stress management coping skills. 	<p>As students, we are learning to build confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between mental and physical health. • explore distraction activities as a possible strategy to help us cope with stress.

SUCCESS CRITERIA:

Co-develop success criteria with your students using the following questions:

- How will we know we are achieving our learning goals?
- What will it look like/sound like?

Re-visit the success criteria you created from [the previous virtual field trips](#). What opportunities are there to extend the learning?

For example:

- I can recognize that stress is a part of life and that it can be managed.
- I can learn ways to respond to stressful challenges.
- I can practice, observe, and apply strategies to help manage my stress.

CONSIDERATIONS:

- ▶ Approaches to all instruction, including Social-Emotional Learning (SEL) skills, must be mediated through respectful conversations about students' lived realities, inequity, bias, discrimination and harassment. Starting with self-reflection about yourself, the classroom and the situations individual students in your class may be coping with is key. It is important to remember that our students face a range of challenges that are relative to their personal, social, and cultural lived experience. They also have existing ways of coping. Be sure to consider sources of stress and examine and address structures that reinforce inequitable conditions that add stress to you, your students and entire communities. Through instruction and modelling, we can help students practise new and bolster existing coping strategies.
- ▶ This virtual field trip lesson is intended to be embedded as part of your school day. Our collective learning takes place on many different traditional Indigenous territories all across Ontario. We are grateful to be able to work and learn locally on these lands. As a school in Ontario we understand morning routines, including a land acknowledgement specific to your location, will have taken place prior to this field trip.
- ▶ The focus on emotions may be difficult for some students. Be prepared to connect students to additional supports if needed. Refer to the [ONE-CALL Desk Reference](#) for more information, and take time to consider your school and board circle of support and service pathways. Know what to do, and who to connect with, if a student seems like they might be struggling with their mental health.
- ▶ An effort has been made to include different options for each of the activities. Please feel free to offer further modifications and accommodations based on the individual student need(s) in your classroom. Also, note that all videos have subtitles. You can choose to have captions by clicking the small 'CC' button at the bottom right of the video screen.

MINDS ON

This virtual field trip focuses on **distraction** activities and how this strategy can help us manage stress. From time to time all of us can feel overwhelmed with feelings and situations that cause us stress. Distraction is one strategy that can help give us some space from those feelings and an opportunity to settle our mind and emotions. There are many activities that can help us refocus our mind and each of us is different in what works best for us.

Often the activity we choose to distract ourselves with reflects our interests or our strengths. Understanding what we value, acknowledging our strengths, and knowing the kinds of activities we find fun can help us choose a suitable distraction.

Please complete this Minds On activity before participating in the virtual field trip.

EDUCATOR	CLASS
<p>Reflect on the following questions:</p> <ul style="list-style-type: none"> • What distractions am I currently using to cope with stress? Are they effective? • What are five activities or actions that bring a smile to my face? Could any of these activities be an effective distraction? 	<p>The I in Image</p> <p>The I in Image activity provides students an opportunity to choose an image that they connect with and then share why they chose it. This activity will shine a light on the strengths and interests of students. It also allows for students to hear and learn about the views of their peers. You can customize this activity for the age and interests of your students through the images you select to use.</p> <p>The linked cards below provide instructions for face-to-face learning. This activity can be adapted for virtual learning by inserting images on a document or in a slide deck. Visit Appendix A for a table of images that may be helpful.</p> <ul style="list-style-type: none"> • The I in Image – ETFO version • The I in Image – OECTA version

ACTION TASK: VIRTUAL FIELD TRIP VIDEO

In this video, a mental health professional will explain the strategy of distraction. Students and educators will share the activities they use to distract themselves. Distraction can help give some space from feelings of stress and provide an opportunity to settle our mind and emotions. There are many activities that can help us refocus our mind – each of us is different in what works best for us.

Links to view virtual field trip:

[Click here to view on YouTube](#)

[Click here to view on Vimeo](#)

CONSOLIDATION

These activities and resources are designed to provide opportunities for consolidation of learning for both the educator and the students. Also provided is a letter to offer parents/caregivers that shares information and possible opportunities for follow-up learning.

EDUCATOR	CLASS
<p>Reflect</p> <p>Now that you have participated in four virtual field trips, (breathing, muscle relaxation, visualization, distraction), take some time and reflect on the following questions:</p> <ul style="list-style-type: none"> • Which strategies (breathing, muscle relaxation, visualization, distraction) do you use most often? • Which strategies (breathing, muscle relaxation, visualization, distraction) work best for you? • Which specific activities do you find most effective? (for example – five-finger breathing, my favourite place, etc.) • Are there new activities that you would like to practice and incorporate into your daily life? 	<p>Choose from the following activities:</p> <ul style="list-style-type: none"> <p>□ Celebrate and Acknowledge</p> <p>Consider setting up a shared space where students can contribute activities or accomplishments that are important to them. If learning in a virtual environment, students could contribute to a digital space. A shared slide deck or JamBoard could work. For a more detailed explanation view the SMH-ON ‘What’s New?’ activity card:</p> <ul style="list-style-type: none"> • What’s New? – ETFO version • What’s New? – OECTA version <p>□ Make a list</p> <p>Ask students to name activities from the video that resonated with them. Make a list of these ‘distraction activities’ that are preferred by your class. Ask: “Are there other activities that you would like to add to the list?”</p> <p>□ Reflect and Discuss</p> <p>Re-visit the strategies learned in the first three lessons – (breathing, muscle relaxation, and visualization). Which was your favourite activity and why? Are you noticing which strategies work best for you? How do you know they are working?</p> <p>□ Practice</p> <ul style="list-style-type: none"> • Offer students opportunities to explore distraction activities of their choice. • Provide opportunities for students to practise the strategies introduced in previous field trips. • Try one of these physical activities from Ophea: https://ophea.net/ideas-action/physical-activity

PARENT/CAREGIVER

Today our class participated in a virtual field trip to learn more about coping with stress, recognizing that stress is a part of life, and that there are strategies to help us cope. If you would like to continue the learning from today, here are a few prompts to ask your child.

- Why do you think it is important to understand and know how to manage your emotions?
- What activities do you use to distract yourself when you are feeling stress?

For more activities to try at home, check out this set of activity cards from *School Mental Health Ontario*: <https://smho-smsso.ca/wp-content/uploads/2020/07/EDMH-ParentActivities-FINAL-EN.pdf>.

You can also access *Ophea's* [Resources to Support Parents and Caregivers with Health and Physical Education at Home](#) and visit [Ophea Open Class](#) for recorded instructional videos and lessons with guiding reflection questions related to social-emotional learning to support learners at home.

Appendix A

Minds On: Images for 'I in Image'

Look through the images and choose one that you relate to, or that you are interested in. Take note of what the image number is, then in the class discussion share your answer about what your choice was and why you chose that image. Click below to download slides of these images:

Introduction

Every day, educators and students are exposed to big and small challenges that can contribute to feelings of stress. This year educators and students have risen to the challenge in innovative and creative ways, connecting and building meaningful relationships with students and families. As the impact of the pandemic continues to evolve, providing opportunities for explicit skill development will continue to be an essential part of bolstering positive student mental health. As an educator, it is equally important to prioritize your own well-being.

School Mental Health Ontario, in partnership with *Ophea*, is offering a series of lessons to support the development of stress management and healthy coping skills. The activities in these lessons provide an opportunity for skill development and modelling for both students and educators.

Each lesson will provide:

- A **minds on activity** for both educators and students.
- An **action** – through a video, classes will participate in a '**virtual field trip**' that provides opportunities for students and educators to learn, practice and develop skills to cope with and manage stress.
- A **consolidation** activity for follow up after the virtual field trip.

In this series of six lessons we will:

- Explore the connection between mental and physical health.
- Discuss the benefits of physical activity for stress management.
- Practice stress management coping skills.

Grades 7 – 8

Lesson Plan

This is the fifth lesson in a series of six lessons to support the development of **stress management** and **healthy coping skills**.

By demonstrating a range of stress management strategies, both students and educators will have more options and ideas for staying mentally well during difficult times. It is important to note that different strategies work for different individuals. Sharing a range of strategies over time will allow students the opportunity to try them out and determine what works for them.

OVERALL EXPECTATIONS:

Strand D, Healthy Living

This chart provides a brief summary of the mental health literacy topic learning, that this lesson will address, for **grades 7 – 8**.

Mental Health Literacy topic	D1 Understanding Health Concepts	D2 Making Healthy Choices	D3 Making Connections for Healthy Living
Grade 7	D1.6 Mental health, mental illness		
Grade 8		D2.4 Routines and habits for mental health	

Strand A, Social Emotional Learning (SEL) Skills

The chart below provides an “at-a-glance” summary of SEL skills. SEL has been shown to support student emotional wellness, when offered in the context of a caring, inclusive, equity-minded classroom setting. When student identity is affirmed, and skills are introduced in a developmentally-appropriate and sequenced manner, students can select and adopt social-emotional strategies that build on their strengths. The highlighted skills will be the focus of this lesson series. Learning related to SEL skills are woven throughout the health and physical education curriculum for all grades.

Students will learn skills to:	So they can:
<ul style="list-style-type: none"> • identify and manage emotions 	<ul style="list-style-type: none"> • express their feelings and understand the feelings of others
<ul style="list-style-type: none"> • recognize sources of stress and cope with challenges 	<ul style="list-style-type: none"> • develop personal resilience
<ul style="list-style-type: none"> • maintain positive motivation and perseverance 	<ul style="list-style-type: none"> • foster a sense of optimism and hope
<ul style="list-style-type: none"> • build relationships and communicate effectively 	<ul style="list-style-type: none"> • support healthy relationships and respect diversity
<ul style="list-style-type: none"> • develop self-awareness and sense of identity 	<ul style="list-style-type: none"> • develop a sense of identity and belonging
<ul style="list-style-type: none"> • think critically and creatively 	<ul style="list-style-type: none"> • make informed decisions and solve problems

For a more detailed overview please see [Appendix A of the 2019 HPE Curriculum](#).

LEARNING GOALS:

EDUCATOR	CLASS
<p>As educators, we are learning to build the confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between our mental and physical health. • discuss the benefits of physical activity for stress management. • practice stress management coping skills. 	<p>As students, we are learning to build confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between mental and physical health. • explore thought-changing as a possible strategy to help us cope with stress.

SUCCESS CRITERIA:

Co-develop success criteria with your students using the following questions:

- How will we know we are achieving our learning goals?
- What will it look like/sound like?

Re-visit the success criteria you created from [the previous virtual field trips](#). What opportunities are there to extend the learning?

For example:

- I can recognize that stress is a part of life and that it can be managed.
- I can learn ways to respond to stressful challenges.
- I can practice, observe, and apply strategies to help manage my stress.

CONSIDERATIONS:

- ▶ **Assisting students to replace unhelpful negative thoughts with calmer more positive thoughts can lead to better ways of managing challenges. Care must be taken, however, to ensure that when students identify thoughts that reflect difficult realities, we take time to meaningfully acknowledge their lived experience. For instance, from an early age many Black, Indigenous and racialized and marginalized students are inundated with hurtful imagery, stereotypes, and narratives that can result in poor self-concept and negative self-talk. They have little control over how their identities are stigmatized in society, which can result in deeply rooted negative thought patterns. It is critical to listen and to validate a student's experience and never to minimize the impact of societal and relational hurts. Through ongoing validation and compassion, it is possible to support students to adopt positive, identity-affirming thoughts to replace those rooted in systemic oppression, racism, bullying and/or marginalization. This takes time and must occur alongside efforts to meaningfully disrupt oppressive and racist systems and messaging at school, and in the wider society. A good starting place is to acknowledge that societal injustices exist and that in this context it can be helpful to affirm personal, cultural, and/or community strengths as a way to dispute negative self-talk.**
- ▶ Approaches to all instruction, including Social-Emotional Learning (SEL) skills, must be mediated through respectful conversations about students' lived realities, inequity, bias, discrimination and harassment. Starting with self-reflection about yourself, the classroom and the situations individual students in your class may be coping with is key. It is important to remember that our students face a range of challenges that are relative to their personal, social, and cultural lived experience. They also have existing ways of coping. Be sure to consider sources of stress and examine and address structures that reinforce inequitable conditions that add stress to you, your students and entire communities. Through instruction and modelling, we can help students practise new and bolster existing coping strategies.

- ▶ This virtual field trip lesson is intended to be embedded as part of your school day. Our collective learning takes place on many different traditional Indigenous territories all across Ontario. We are grateful to be able to work and learn locally on these lands. As a school in Ontario we understand morning routines, including a land acknowledgement specific to your location, will have taken place prior to this field trip.
- ▶ The focus on emotions may be difficult for some students. Be prepared to connect students to additional supports if needed. Refer to the [ONE-CALL Desk Reference](#) for more information, and take time to consider your school and board circle of support and service pathways. Know what to do, and who to connect with, if a student seems like they might be struggling with their mental health.
- ▶ An effort has been made to include different options for each of the activities. Please feel free to offer further modifications and accommodations based on the individual student need(s) in your classroom. Also, note that all videos have subtitles. You can choose to have captions by clicking the small 'CC' button at the bottom right of the video screen.

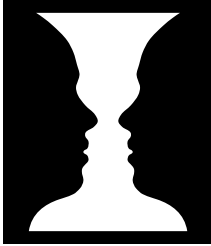

MINDS ON

Do you ever notice that sometimes you get stuck in thinking negative thoughts or assuming that other people might be thinking or feeling a certain way about you? Do you spend time worrying about the future and what may or may not happen?

We call these “thinking traps” and they can happen to any of us! While these thoughts are often unrealistic or untrue, they can impact how we feel about ourselves and others. This virtual field trip focuses on **thought-changing strategies**. These strategies help us slow down and notice what we may be feeling. We can begin to identify thinking traps while developing skills to help us challenge and restructure our thinking in healthy ways. The skills we develop using thought-changing strategies can support self-awareness, self-monitoring, and communication of thoughts and feelings.

Please complete this Minds On activity before participating in the virtual field trip.

EDUCATOR	CLASS
<p>Affirmations are positive statements or reminders that we can use to encourage ourselves and others. These simple sentences can provide us with an opportunity to shift our thinking and approach our day or situation with a more positive and confident mindset. As an educator you might find you are affirming students regularly. Often, it is easier for us to affirm others, than it is to affirm ourselves. We need to remember that it is important to encourage ourselves as well. If you'd like to give it a try, here are a few positive affirmations to choose from or you might like to create your own. Consider the following affirmations to think or say to yourself and repeat throughout your day.</p> <ul style="list-style-type: none"> • I am doing my best. • I am capable of amazing things. • I choose to focus on what I can change. • I have courage and confidence. • I deserve understanding and compassion. • I am at peace with who I am. 	<p>Choose from the following two activities:</p> <p>What Do You See? This drawing activity is designed to help students think about how we are able to shift the focus of our thinking. See Appendix A for instructions.</p> <p>Illusions This activity is designed to inspire flexible thinking and reframing. Start by sharing an illusion image with your class. For example:</p>  <p>illusion image from: https://www.littlepassports.com/science/optical-illusions-art-gallery</p> <p>Appendix B offers another image you can use. Ask the class what they see. If students have difficulty seeing the illusion, give them two choices to select from. Usually, viewers do not unanimously agree on what they see. The important message is that we can view things in more than one way, it simply depends on the perception.</p> <ul style="list-style-type: none"> • For more information on this Illusions activity visit our SMH-ON activity cards: <ul style="list-style-type: none"> • Everyday Mental Health version (ETFO) • Faith and Wellness version (OECTA)

ACTION TASK: VIRTUAL FIELD TRIP VIDEO

In this video, students and educators will learn about thought-changing and participate in activities to practice healthy thought habits.

The following resources are used in this video:

- [SOS](#)
- [Four Square Breathing](#) (go to link and click on calm breathing)

Links to view virtual field trip:

[Click here to view on YouTube](#)

[Click here to view on Vimeo](#)

CONSOLIDATION

These activities and resources are designed to provide opportunities for consolidation of learning for both the educator and the students. Also provided is a letter to offer parents/caregivers that shares information and possible opportunities for follow-up learning.

EDUCATOR	CLASS
<p>Choose from the following thinking prompts:</p> <p>Reflect</p> <ul style="list-style-type: none"> Reflect on your thought patterns over the past few days. Are there recurring unhelpful or anxious thoughts? Are you stuck on a particular thought that keeps coming back? Try to identify what thoughts keep returning. Every time this unhelpful thought pops back into your brain, replace it with a new and helpful thought. If you struggle to come up with helpful responses to your thoughts, it can help to put yourself in the mindset of a friend. If your friend was having the same unhelpful thoughts, how would you respond? Consider re-visiting the five strategies introduced so far, (breathing, muscle relaxation, visualization, distraction, thought-changing), and take some time to think about what works best for you. 	<p>Choose from the following activities:</p> <p>▣ Practice</p> <ul style="list-style-type: none"> Re-visit the Four Square breathing activity shown in the video. (Click the link and then click on Calm breathing to view the activity.) Re-visit previous field trips and explore how those strategies could be used in combination with the thought-changing activities shared in this lesson. <i>The Power of Yet</i> <ul style="list-style-type: none"> Everyday Mental Health version (ETFO) Faith and Wellness version (OECTA) <i>Four finger affirmation</i> <ul style="list-style-type: none"> Everyday Mental Health version (ETFO) Faith and Wellness version (OECTA) <p>Click here for a printable Four Finger Affirmation poster for your classroom, or your students may prefer the Secondary version of the poster found here.</p> <p>▣ Reflect and Discuss</p> <p>Re-visit the strategies learned in the first four lessons (breathing, muscle relaxation, visualization, and distraction).</p> <ul style="list-style-type: none"> Is there an activity from one of the field trips that you have started using regularly? If so, which one and why do you use it? Are you noticing which strategies, (breathing, muscle relaxation, visualization, distraction, thought-changing) work best for you? How do you know they are working? <p>▣ Share</p> <ul style="list-style-type: none"> Download the Thought-changing social media bundle from our site for easy to share images and ideas. https://smho-smso.ca/blog/new-student-resources-for-anxiety-management-and-mental-health-literacy

PARENT/CAREGIVER

Today our class participated in a virtual field trip to learn more about coping with stress, recognizing that stress is a part of life, and that there are strategies to help us cope.

We learned about how our thoughts, feelings, and actions can impact one another. We also learned about ways that we can reflect on our thoughts and feelings so that we can better recognize them and how they impact us. As parents/caregivers you have a deep impact on your child's self-esteem and their early inner voice. If you would like to continue the learning from today, here are a few prompts to ask your child.

- What did you learn today about how our thoughts, feelings, and actions are connected?
- What did you find interesting about what you learned?
- What strategies have you learned that you find helpful when you have big feelings or feel overwhelmed?

For more activities to try at home, check out this set of activity cards from *School Mental Health Ontario*: <https://smho-smsso.ca/wp-content/uploads/2020/07/EDMH-ParentActivities-FINAL-EN.pdf>.

You can also access *Ophea's Resources to Support Parents and Caregivers with Health and Physical Education at Home* <https://www.ophea.net/resources-support-parents-and-caregivers-health-and-physical-education-home> and visit *Ophea Open Class* <https://ophea.net/hpe-online-learning/elementary/ophea-open-class> for recorded instructional videos and lessons with guiding reflection questions related to social-emotional learning to support learners at home.

Appendix A

What do you see?

Instructions: Invite students to draw a picture of their choice without providing a theme or giving further instructions. When they are done drawing use the following questions to help students identify the part of their drawing, that they like the most and the part of the drawing they would like to improve.

1. What do like most about your picture?
2. Which part of your picture do you dislike or would like to change?
3. Turn over your picture for a few seconds then turn it back. What do you see? What does your eye focus on? The part that you like or part that you don't like?
4. Turn over your picture once again. This time, when you turn it back, try hard to focus only on the part that you do like.

Make a connection between their drawing and their thoughts before playing the virtual field trip video. This speaking prompt may be helpful:

“The idea of shifting our thoughts that we just practiced with our drawings can be applied to more situations. Sometimes we have unhelpful thoughts that move in and we can get stuck thinking about them. We can learn to notice our thoughts, stop, and think, and then shift our thoughts to be more positive.”

Appendix B

Images for Illusions Activity

These images go with the activity outlined in the Minds On section. Choose an illusion, or illusions that best suits your students. You can find a variety of illusions at [The Gallery of Optical Illusion Art](#) or by googling the term 'illusion images' or 'what do you see illusions'. You may wish to re-visit the 'dress illusion' photograph that went viral on the internet in 2015. It sparked a debate over whether a dress was black and blue, or white and gold. Two ready-to-use illusion images are available below.

Source: <https://www.littlepassports.com/science/optical-illusions-art-gallery/>

Duck or Rabbit? This image is a classic optical illusion that has been around for over 100 years. In 1899 American psychologist Joseph Jastrow used it in research he was conducting about perception and mental activity.

Introduction

Every day, educators and students are exposed to big and small challenges that can contribute to feelings of stress. This year educators and students have risen to the challenge in innovative and creative ways, connecting and building meaningful relationships with students and families. As the impact of the pandemic continues to evolve, providing opportunities for explicit skill development will continue to be an essential part of bolstering positive student mental health. As an educator, it is equally important to prioritize your own well-being.

School Mental Health Ontario, in partnership with *Ophea*, is offering a series of lessons to support the development of stress management and healthy coping skills. The activities in these lessons provide an opportunity for skill development and modelling for both students and educators.

Each lesson will provide:

- A **minds on activity** for both educators and students.
- An **action** – through a video, classes will participate in a '**virtual field trip**' that provides opportunities for students and educators to learn, practice and develop skills to cope with and manage stress.
- A **consolidation** activity for follow up after the virtual field trip.

In this series of six lessons we will:

- Explore the connection between mental and physical health.
- Discuss the benefits of physical activity for stress management.
- Practice stress management coping skills.

Grades 7 – 8

Lesson Plan

This is the sixth and final lesson in this series to support the development of **stress management** and **healthy coping skills**.

By demonstrating a range of stress management strategies, both students and educators will have more options and ideas for staying mentally well during difficult times. It is important to note that different strategies work for different individuals. Sharing a range of strategies over time will allow students the opportunity to try them out and determine what works for them.

OVERALL EXPECTATIONS:

Strand D, Healthy Living

This chart provides a brief summary of the mental health literacy topic learning, that this lesson will address, for **grades 7 – 8**.

Mental Health Literacy topic	D1 Understanding Health Concepts	D2 Making Healthy Choices	D3 Making Connections for Healthy Living
Grade 7	D1.6 Mental health, mental illness		
Grade 8		D2.4 Routines and habits for mental health	

Strand A, Social Emotional Learning (SEL) Skills

The chart below provides an “at-a-glance” summary of SEL skills. SEL has been shown to support student emotional wellness, when offered in the context of a caring, inclusive, equity-minded classroom setting. When student identity is affirmed, and skills are introduced in a developmentally-appropriate and sequenced manner, students can select and adopt social-emotional strategies that build on their strengths. The highlighted skills will be the focus of this lesson series. Learning related to SEL skills are woven throughout the health and physical education curriculum for all grades.

Students will learn skills to:	So they can:
<ul style="list-style-type: none"> • identify and manage emotions 	<ul style="list-style-type: none"> • express their feelings and understand the feelings of others
<ul style="list-style-type: none"> • recognize sources of stress and cope with challenges 	<ul style="list-style-type: none"> • develop personal resilience
<ul style="list-style-type: none"> • maintain positive motivation and perseverance 	<ul style="list-style-type: none"> • foster a sense of optimism and hope
<ul style="list-style-type: none"> • build relationships and communicate effectively 	<ul style="list-style-type: none"> • support healthy relationships and respect diversity
<ul style="list-style-type: none"> • develop self-awareness and sense of identity 	<ul style="list-style-type: none"> • develop a sense of identity and belonging
<ul style="list-style-type: none"> • think critically and creatively 	<ul style="list-style-type: none"> • make informed decisions and solve problems

For a more detailed overview please see [Appendix A of the 2019 HPE Curriculum](#).

LEARNING GOALS:

EDUCATOR	CLASS
<p>As educators, we are learning to build the confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between our mental and physical health. • discuss the benefits of physical activity for stress management. • practice stress management coping skills. 	<p>As students, we are learning to build confidence and competence to:</p> <ul style="list-style-type: none"> • explore the connection between mental and physical health. • explore gratitude as a possible strategy to help us cope with stress.

SUCCESS CRITERIA:

Co-develop success criteria with your students using the following questions:

- How will we know we are achieving our learning goals?
- What will it look like/sound like?

Re-visit the success criteria you created from [the previous virtual field trips](#). What opportunities are there to extend the learning?

For example:

- I can recognize that stress is a part of life and that it can be managed.
- I can learn ways to respond to stressful challenges.
- I can practice, observe, and apply strategies to help manage my stress.

CONSIDERATIONS:

- ▶ Approaches to all instruction, including Social-Emotional Learning (SEL) skills, must be mediated through respectful conversations about students' lived realities, inequity, bias, discrimination and harassment. Starting with self-reflection about yourself, the classroom and the situations individual students in your class may be coping with is key. It is important to remember that our students face a range of challenges that are relative to their personal, social, and cultural lived experience. They also have existing ways of coping. Be sure to consider sources of stress and examine and address structures that reinforce inequitable conditions that add stress to you, your students and entire communities. Through instruction and modelling, we can help students practise new and bolster existing coping strategies.
- ▶ This virtual field trip lesson is intended to be embedded as part of your school day. Our collective learning takes place on many different traditional Indigenous territories all across Ontario. We are grateful to be able to work and learn locally on these lands. As a school in Ontario we understand morning routines, including a land acknowledgement specific to your location, will have taken place prior to this field trip.
- ▶ The focus on emotions may be difficult for some students. Be prepared to connect students to additional supports if needed. Refer to the [ONE-CALL Desk Reference](#) for more information, and take time to consider your school and board circle of support and service pathways. Know what to do, and who to connect with, if a student seems like they might be struggling with their mental health.
- ▶ An effort has been made to include different options for each of the activities. Please feel free to offer further modifications and accommodations based on the individual student need(s) in your classroom. Also, note that all videos have subtitles. You can choose to have captions by clicking the small 'CC' button at the bottom right of the video screen.

MINDS ON

This virtual field trip focuses on **gratitude**. Gratitude is when we express appreciation and thanks for the good things in our lives. We can be thankful for what we receive, the people who surround us and the fun and interesting things we get to experience and do. Gratitude is a way of thinking, one that you can practice, develop and cultivate. Gratitude also helps you manage stress and can bring more positivity and joy into your life.

Please complete this Minds On activity before participating in the virtual field trip.

EDUCATOR	CLASS
<p>Viewing the world and relationships through a lens of gratitude can help us notice and appreciate the positives in life, even when facing a challenge. Use the prompts below to help you notice and acknowledge the things that you are grateful for.</p>	<p>Choose from the following options:</p> <ul style="list-style-type: none"> • Positive Post-its This activity is designed to cultivate and support kind interactions and positivity. Be sure to check out the suggested adaptations on this card for other ideas that might fit the needs of your students. <ul style="list-style-type: none"> - Everyday Mental Health version (ETFO) - Faith and Wellness version (OECTA) • Affirmations Introduce students to the use of positive affirmations using one of the following tools. These affirmations could be approached with the lens of gratitude. <ul style="list-style-type: none"> - Four Finger Affirmations - Gratitude Reminders: • KWL Chart Use <i>Ophea's Student Resource: Recordable Learning Tool, KWL Chart</i> to find out what students know and what they want to know.

ACTION TASK: VIRTUAL FIELD TRIP VIDEO

In this video, students and educators will learn **why** gratitude is a useful tool to help us cope with stress, **how** we can practice gratitude, and you'll hear thoughts about gratitude from students.

CONSOLIDATION

These activities and resources are designed to provide opportunities for consolidation of learning for both the educator and the students. Also provided is a letter to offer parents/caregivers that shares information and possible opportunities for follow-up learning.

EDUCATOR	CLASS
<p>Choose from the following activities:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Reflect <ul style="list-style-type: none"> • Reflect on the entire virtual field trip series. Are there strategies that you have adopted or would like to adopt into your everyday life? <input type="checkbox"/> Practice <ul style="list-style-type: none"> • Consider re-visiting all the strategies, (breathing, muscle relaxation, visualization, distraction, thought-changing and gratitude), and take some time to practice the activities that you wish to adopt. • Consider trying the following Gratitude Notes activity as part of your morning routine: <input type="checkbox"/> Share <ul style="list-style-type: none"> • Consider sharing this virtual field trip series with a colleague to use with their class! 	<p>Choose from the following activities:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Practice <ul style="list-style-type: none"> • The following link will take you to three different activity cards on gratitude that can be used for consolidation. <p>Expressing Gratitude activities:</p> <ul style="list-style-type: none"> - Everyday Mental Health version (ETFO) - Faith and Wellness version (OECTA) • Re-visit the affirmation activities suggested in the Minds-On section of this lesson. <input type="checkbox"/> Reflect and Discuss <p>If you used Ophea's KWL chart in the Minds On section, re-visit the tool here to record any new information that students learned.</p> <p>Re-visit the strategies learned in the first five lessons (breathing, muscle relaxation, visualization, distraction, thought-changing).</p> <ul style="list-style-type: none"> • Is there an activity from one of the field trips that you have started using regularly? If so, which one and why do you use it? • Have you noticed which strategies, (breathing, muscle relaxation, visualization, distraction, thought-changing) work best for you? • How do you know they are working? <input type="checkbox"/> Share <ul style="list-style-type: none"> • Encourage students to share their favourite strategy with a classmate, friend, or family member!

PARENT/CAREGIVER

Today our class participated in a virtual field trip to learn more about coping with stress, recognizing that stress is a part of life, and that there are strategies to help us cope.

We learned that gratitude is a way of thinking, one that you can practice, develop and cultivate. We also learned that practising gratitude can help us manage stress and bring more positivity to our lives. If you would like to continue the learning from today, here are a few prompts to ask your child.

- What can we do to show gratitude?
- What did you find interesting about what you learned?
- What strategies have you learned that you find helpful when you have big feelings or feel overwhelmed?

For more activities to try at home, check out this set of activity cards from *School Mental Health Ontario*: <https://smho-smso.ca/wp-content/uploads/2020/07/EDMH-ParentActivities-FINAL-EN.pdf>.

You can also access *Ophea's Resources to Support Parents and Caregivers with Health and Physical Education at Home* <https://www.ophea.net/resources-support-parents-and-caregivers-health-and-physical-education-home> and visit *Ophea Open Class* <https://ophea.net/hpe-online-learning/elementary/ophea-open-class> for recorded instructional videos and lessons with guiding reflection questions related to social-emotional learning to support learners at home.
